## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15 & 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Maisotsenko et al (US 6,497,107). Maisotsenko discloses an evaporative cooling apparatus for use with a vehicle and comprising: a first and second tube like channel (1,3) with distribution means (11, 74), the housing having inlet and outlets ports in communication with ambient air and a water distribution box (56) for distributing water with a bypass line (41) communicating with a first channel.

### ***Allowable Subject Matter***

**Claims 1-14 are allowed over the prior art of record.**

Claims 16 & 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
